Annual Index

January 15–December 15, 1999

SUBJECT INDEX

AIDS

HIV disease in the new century. 10/15:63-81

Alternative medicine

Acupuncture: Another therapeutic choice? 6/15:149-176
Advising patients about St. John's wort and depression. 3/15:107-114
Herbal medicines you can recommend with confidence. 9/15:76-94
Using mind-body therapies in primary care. 7/15:108-126

Alzheimer's disease

Distinguishing vascular dementia from Alzheimer's disease. 10/30:71-89

CAM Spotlight – Complementary and alternative medicine

Bee venom for multiple sclerosis. 9/15:27-31
Breast cancer prevention: Beyond the silent spring. 10/15:24-29
Chinese herbs and the skin. 5/15:21-26
Chiropractic: Defining its role. 6/15:23-29
Glycosamine for arthritis: Hope or hype? 7/15:17-28
Herbal update: Saw palmetto and the prostate. 4/15:29-35
Homeopathy: Can like cure like? 12/15:16-27
Operation Cure.all: Taking action against wellness fraud. 11/15:23-28
St. John's wort and depression. 8/15:29-33

Cancer

Current approaches to the lymphomas. 4/30:65-87
Using tumor markers in cancer screening and follow-up. 3/30:109-124

Cardiology

A comprehensive look at cardiomyopathy. 6/15:210-235
Acute MI treatment: New therapies, new directions. 4/30:87-113
Acute pericarditis: A diagnostic challenge. 2/28:132-144
Antihypertensive therapy made easier. 6/15:109-124
Atrial fibrillation. More questions than answers. 3/15:162-188
Dispelling myths about cholesterol management. 5/30:114-126
How to assess cardiac risk before noncardiac surgery. 4/15:197-219
Making a difference in post-MI care. 12/15:63-95
Managing the pregnant patient with heart disease. 3/15:53-81
MIDCAB: The future of cardiac surgery? 2/28:74-94
Reconsidering the role of right heart catheterization. 3/15:212-220
Statins: New uses to improve outcomes. 7/15:130-144
The growing role of stents in coronary artery disease. 5/30:43-58
Treating early prostate cancer: Difficult decisions abound. 10/15:82-105
Using β-blockers in patients with heart failure. 3/30:205-215
Ventricular arrhythmias: A new era in management. 9/15:152-170

Case & Comment

A baby with blisters. 7/15:205-208
A college student with flu-like symptoms. 10/30:118-120
A large, rapidly growing scapular mass. 3/30:217-218
A locking sensation in the hip. 6/15:281-284
A man with retrobulbar pain and Marcus Gunn pupil. 3/30:218-221
A man with sinusitis and a dilated pupil. 9/15:220
A nearly lichenified maculopapular rash. 5/15:249-250
A patient interview with problems. 11/30:104-108
A recurrent rash with blisters in an obese woman. 5/15:245-246
A suspicious rash and extreme fatigue in a 62-year-old woman. 2/15:209-210
A young girl with "spells" and hallucinations. 4/15:251-252
An AIDS patient with hallucinations and pyrexia. 4/15:252-253
An AIDS patient with hemoptysis and chest pain. 5/30:129-130
An older man with blurred vision. 2/28:149-150
An older man with confusion and emesis. 7/15:208-210
An older man with unexplained fatigue. 6/15:284-289
An older woman with diabetes, emesis, and weight loss. 4/30:163-164
Anxiety and a severe headache. 9/30:112
Atrial fibrillation and GI problems. 1/30:126-128
Atypical chest pain in an elderly woman. 2/15:210-215
Back pain with radiculopathy. 10/15:201-203
Cough and dyspnea in a woman with an unusual exposure history. 2/15:207-209
Cough in a man with lung cancer. 5/30:130-131
Facial and digital clues. 1/30:125-126
Fatigue and anhedonia. 12/15:174-175
Fever, chills, and headache in a man from Nicaragua. 3/15:221-222
Hives, oral allergy syndrome, and more. 9/30:111
Left flank pain and suspected pneumonia. 12/15:171-172
Lethargy, dyspnea, abdominal distention, and more. 2/28:150-153
Neck pain and arm weakness in an older woman. 9/15:219-220
Palpable lesions resistant to corticosteroids. 4/30:159-163
Persistently low platelet counts in a 41-year-old woman. 4/15:251
Postpartum fever resistant to antibiotics. 7/15:210
Pruritic rash on the left palm. 5/15:246-249
Recurrent hand nodules in an older man. 10/30:118
Recurrent hypoglycemia in a nondiabetic patient. 3/15:224-225
Severe chest pain after surfing. 11/30:103-104
Swollen and cyanotic fingers in a cachectic patient. 10/15:201
Syncope in a man without chest pain. 12/15:172-174
Troubling tremors. 1/15:170
Two seizures and high BP. 1/15:164-168
Two women with unusual headaches. 9/15:220-221
Unexplained weight loss in an older woman. 10/15:203
Will God heal her kidneys? 6/15:289

Clinical Clips

A better outlook for patients with thick melanoma. 5/15:251
A clearer picture of childbearing after age 40. 3/15:227-228
A way to reduce childhood seizures. 4/15:255-256
ACE inhibitors versus diuretics and β-blockers for hypertension. 4/30:169-170
Acne, minocycline treatment, and lupuslike syndrome. 5/15:251-252
Alternative medicine use climbs steeply. 1/15:176
An explanation for the sunscreen/melanoma paradox? 3/30:222
Angioplasty or CABG? 1/15:176
Another look at warfarin loading doses. 3/15:227
Antibiotic use: Still on the increase. 1/15:175-176
Asthma: Underdiagnosed and poorly treated in the elderly. 11/30:109-110
Breathing insulin? 2/28:156
Calcium antagonists beneficial in diabetes and hypertension. 6/15:291
Can age-related metabolic slowing be reversed? 4/15:255
Cardiorespiratory fitness may prevent diabetes. 3/30:222
Cereal fiber lowers CHD risk in women. 9/15:222
Changes in ovarian cancer mortality. 3/15:226-227
Cholesterol lowering improves endothelial function. 11/30:109
Chronic stress takes a toll on the immune system. 4/30:170
Clinical medicine: A balancing act. 9/15:222
Deep vein thrombosis: Still a risk with modern OCs. 3/30:222
Depression increases the risk of falls in older women. 7/15:211
Depressive symptoms increase mortality risk among the hospitalized elderly. 8/15:215
Diagnostic testing in women with chest pain. 2/15:218
Different fats, different outcomes. 9/15:222
Digoxin toxicity: Timing is everything. 2/15:218
Discouraging data on onychomycosis. 3/15:226
Does body-mass index predict mortality risk? 12/15:176
Do high-SPF sunscreens increase sun exposure? 11/15:229
Doxycycline for patients hospitalized with CAP. 4/15:255
Early smoking, greater risk. 6/15:291
Effects of the Mediterranean diet in MI prevention. 4/15:254
Evidence against an atherosclerosis-Chlamydia link. 10/30:125
Exercise classes for patients with low back pain. 10/30:125-126
Falling short on the prevention of recurrent MI. 5/30:132
Geriatric assessments keep older adults well. 11/15:230
Hand in glove: Smoking cessation and weight gain. 1/30:134
Heart failure is widely undertreated. 2/15:217
How significant is white coat hypertension? 1/30:134
Identifying premenopausal women at risk of depression. 8/15:215-216
Immunization status of premature and low-birth-weight infants. 11/15:229
Improvements in melanoma survival. 5/15:251
Individualizing therapy prevents the consequences of estrogen deficiency. 9/30:114-116
Insulin resistance syndrome and coronary events in elderly nondiabetic men. 9/30:114
Lowering the risk of fractures in postmenopausal women. 2/28:156
Mild brain injury in popular high school sports. 11/30:109

Moderate exercise, tai chi improve BP in older adults. 11/15:230
More evidence in favor of β-blockers in heart failure. 3/15:226
More on intensive therapy in patients with type 2 diabetes. 4/30:169
More strong evidence in favor of lipid-lowering treatment. 1/15:175
Nonsurgical therapies for vitiligo evaluated. 5/15:252
Omega 3 fatty acids: An adjunctive treatment for bipolar disorder? 8/15:215
Once-daily amoxicillin therapy for strep throat. 5/30:132
Optimizing interventions for mild cognitive impairment. 6/15:291-292
Predicting recurrent febrile seizures. 2/15:217
Pulse pressure as a predictor of coronary heart disease. 10/15:205
Purple grape juice: A liter a day keeps the doctor away. 11/15:229-230
Reassurance about diuretics and β-blockers. 7/15:211-212
Reassurance about low-probability lung scans. 4/30:169
Reducing LVH. 2/28:156
Reducing the risk of pneumonia among the institutionalized elderly. 12/15:176
Sertraline therapy for premenstrual dysphoric disorder. 10/15:205
Telephone triage: Second best. 2/15:218
The benefits of laser resurfacing persist. 5/15:252
The DASH diet: Highly effective in hypertensive African Americans. 4/15:254
The dismal outlook for patients with heart failure. 6/16:291
The effect of aerobic exercise on vasorelaxation. 12/15:176
The value of long-term β-blocker use after MI. 9/30:114
Tight BP control in patients with diabetes is well worthwhile. 1/15:175
Triglycerides and long-term mortality patients with CHD. 10/30:125
Type 2 diabetes incidence continues to rise. 10/15:205-206
Warfarin is still underused in stroke patients. 1/30:134
Weight gain in children and adult cardiovascular risk. 7/15:211

Common conditions
Part 1. Asthma, rhinitis, sinusitis, urticaria. 1/15:115-139
Part 2. HIV disease, persistent fever, nonresolving pneumonia, tuberculosis. 3/15:28-50
Part 3. Reflux, abdominal pain, diarrhea. 4/15:238-249
Part 4. Osteoarthritis, shoulder impingement, cervical radiculopathy, plantar fasciitis. 7/15:176-202
Part 5. Hypothyroidism, hyperthyroidism, hyperparathyroidism. 9/15:186-206
Part 6. Migraine, epilepsy, MS. 10/15:150-168

Computers in clinical care
The Internet in medicine: An update. 1/15:30-54

Dermatology
A practical approach to managing dermatitis. 5/15:65-95
Common dermatologic problems in people of color. 12/15:97-117
Onychomycosis: Avoiding indefinite, improper management. 5/15:197-213
Poison ivy update. 5/15:214-237
Preventing mortality in cutaneous melanoma. 5/15:34-60
Psoriasis: New clues to causation, new ways to treat. 5/15:154-164
Saving face: A treatment update for acne. 6/15:257-277
Six dermatologic emergencies not to miss. 5/15:121-150
Skin lesions that mimic child abuse. 5/15:169-192
Strategies for managing bacterial skin infections. 9/15:53-71
The promises—and limits—of cosmetic dermatology. 5/15:97-116

Diabetes
Advances in therapy for type 2 diabetes. 10/15:189-200
Problems in Diabetes.
Part 1. Managing unstable disease. 4/15:54-76
Part 2. Assessing and treating hypoglycemic events. 4/30:22-40
Part 3. Type 2 diabetes: Earlier detection, younger patients. 5/30:18-42
Strategies to limit heart disease in diabetes. 11/30:37-49

Drugs
A careful approach to off-label use. 9/30:95-110
Minimizing the risks of drug interactions. 3/30:26-68
Platelet inhibitors: Old and new uses. 10/30:111-117
Using the newer antibiotics wisely. 9/15:97-120

Editorials
Consequential Rx costs. 3/15:9
Forging a new role in urgent office care. 2/15:13-14
From hysteria to DSM-IV. 8/15:9
Goodbye, Paul. 5/30:7
Imagine, no hospital admissions. 10/30:7
It depends on how you look at things. 2/28:8
It's time to broaden our therapeutic options. 4/30:7
Keeping an open mind. 12/15:7
Prescribing more intelligently. 10/15:9
Prescriptions for better health. 11/15:7-8
Shared decisions. 6/15:11
Sharing a wealth of knowledge. 5/15:11
Trivial or dangerous? 5/15:11-12
Your guide to anxiety and depression. 8/15:8-10
Your name goes here. 7/15:5
Watchful waiting. 4/15:7
Why I practice medicine. 9/15:9

Endocrinology
Chronic renal failure: Slowing the onset, changing the course. 11/30:76-88

Flowcharts
An approach to SLE testing. 3/15:94
Choosing antibiotic therapy for Lyme disease. 6/15:198
Managing mildly abnormal Pap smears. 7/15:57
Managing outpatient therapy of DVT. 2/15:70.
Treating acne vulgaris. 6/15:270-271
Workup for chest pain in women. 10/15:53

Gastroenterology
Barrett's esophagus: Put guidelines into practice. 9/15:73-75
Contemporary management of gallstone disease. 10/30:90-106
H pylori infection: Simplifying the management. 12/15:118-134

Geriatrics
Assessing gait abnormalities in the elderly. 4/15:78-94
How to assess memory loss in the elderly. 3/15:197-211

Gynecology
Clinical management of rape in adolescent girls. 4/30:42-61
Individualized care for the perimenopausal woman. 2/28:47-73
STDs: Are you up to date? 5/30:74-102
Vaginitis: Solid diagnosis means effective treatment. 1/30:86-106

Hypertension
New trends in hypertension management. 1/30:46-80

Infectious disease
Acute infectious diarrhea in adults. 9/30:58-77
Another cause for urticaria. 4/15:43
Another resource for obesity. 4/15:46
Consult a medical librarian. 4/15:44
Current thinking on sepsis treatment. 9/30:78-92
Depression or psychosis in the elderly. 4/15:44
Drug-drug interactions. 4/15:44
EBM: From clinical study to bedside. 4/15:43
Now you can prevent Lyme disease. 6/15:180-205
Panic disorder and mitral valve prolapse. 4/15:46
The cost of antihypertensive therapy. 4/15:43
The real risk of HIV from transfused blood. 4/15:44-46
Treatment of systemic fungal infections. 11/30:50-72
Viral disease tests: A changing arena. 2/28:18-31
What's new in meningitis management. 6/15:237-254

Medicine in the News
Acupuncture: Cautious endorsement from NIH. 1/15:25
Adolescent-onset depression and adult suicide. 8/15:17
AIDS deaths decline. 10/30:8-13
Antidepressant effective for movement disorders. 11/30:7-8
Antihypertensives not usually the cause of impotence. 7/15:15
Asthma management information online. 3/15:15
Awareness of diabetes complications. 7/15:12
Brain cell abnormalities seen in major depression. 8/15:18
Can light alcohol use prevent sudden cardiac death? 11/15:16
CDC issues new HIV surveillance guidelines. 4/15:18
CDC revises guidelines on preventing opportunistic infections in HIV. 11/15:16-20
Childhood sleep disturbances linked to TV. 10/30:13
Clopidogrel or aspirin? Which to recommend for atherothrombotic disease. 10/15:12-21
CME TV: Coming to a hospital near you. 4/15:25
Combination therapy reduces risk of death in mild heart failure. 7/15:9-12
Common test for cat allergies not always needed. 7/15:12-15
COPD and osteoporosis risk in men. 1/15:29
Cranberry juice for UTIs. 1/15:26-29
CT: A potential lung cancer screening tool? 9/30:12
Defibrillator training added to CPR courses. 2/15:16
Dermatologic consultations via the Internet. 5/15:20
Estrogen for cold-induced ischemia in men. 3/15:11
Evidence supports chemoradiation for cervical cancer. 4/30:9-10
FDA advisory committee weighs in on troglitazone controversy. 6/15:15
First COX-2 inhibitor gets approval recommendation. 1/30:7-8
First epileptic seizure protocol. 2/15:25
Functional foods fight high cholesterol. 2/28:9
Fungus implicated as cause of chronic sinusitis. 11/30:7

Gender differences in asthma symptom severity. 2/15:20-25
Gene linked to salt sensitivity in African Americans. 6/15:16
Genetic personality makeover. 10/15:12
Guidelines online. 2/28:12
Guidelines revised for coronary artery bypass surgery: 12/15:12
H pylori treatment improves rosacea. 5/15:20
Hepatitis C transmission trends: 1983-1996. 1/15:26
High-dose epinephrine: No benefit in cardiac arrest. 2/15:16-17
Hormone levels may predict breast cancer risk. 5/30:9-10
Hypertension: Declining rates of detection and control. 11/15:13
Illicit drug use by teens declines. 10/15:21
Improving blood-supply safety. 6/15:16
Increased sleep linked to increased mortality. 4/15:25
Infected animal bite wounds: Is monotherapy appropriate? 5/15:18
Lifetime consequences of obesity. 12/15:11-12
Lifetime heart disease risk. 3/15:11
Listeriosis outbreak linked to hot dogs. 2/28:10
Low IQ linked to untreated maternal thyroid disease. 10/15:21
Melanoma incidence continues to rise. 5/15:17
More benefits from estrogen. 4/15:18-20
More promising results from "natural" bypass studies. 3/15:10
NASA's earthbound experiments shed light on breast cancer. 1/30:7
National Alcohol Screening Day. 1/30:8
National Depression Screening Day. 9/15:21
Needle exchange programs: Do they lower hepatitis risk? 4/15:17
New alerts to help prevent malnutrition in long-term care. 11/15:16
New antiviral for influenza prophylaxis. 9/15:15-18
New, deadly encephalitis virus identified. 10/30:8
New food pyramid for the elderly. 4/30:10
New option for first-line treatment of HIV. 3/15:12-15
New options for office-based anesthesia. 2/15:20
New sickle cell pain management guideline. 11/30:8
NIMH revamps proposal review process. 8/15:20
Nonsurgical technique for carpal tunnel syndrome. 3/15:12
NSAIDs and colon cancer risk. 3/30:13-16
Online Rx: Protecting patient safety. 7/15:9
Potential vaccine for Alzheimer's disease. 9/15:15
Progestin-only emergency contraception pill now available. 9/30:12-15
Prophylaxis after nonoccupational exposure to HIV. 2/15:17-20
Prostate-specific antigen: A treatment for prostate cancer? 12/15:12-15
Proton pump inhibitors work best with breakfast. 1/15:25
Recommendations for varicella vaccination. 10/30:14
Recommended childhood immunization schedule. 3/30:14
Risk factors for stroke after cardiac surgery. 10/15:10
Should you pay closer attention to serum uric acid levels? 9/15:18-21
Sildenafil improves diabetes-related impotence. 4/15:20
Smoking cessation: Combination therapy best approach. 5/30:9
Snapshot: What Americans eat. 4/15:20
SSRIs widely used for children. 8/15:18
Study clarifies estrogen's benefits, risks. 2/28:10-12
Study clarifies tamoxifen's role in endometrial cancer risk. 12/15:15
Study examines tie between estrogen loss and eye disease. 11/30:8
Study to assess best cholesterol level for cardiac patients. 5/30:10
Sunburn risk increases with altitude. 5/15:18-20
Survey finds chronic pain undertreated. 4/30:13
Take two chocolates and… 10/30:14
The cost of anxiety. 9/30:15
Tips on using weight guidelines. 11/15:20
Too few women receive thyroid test. 4/30:13
Tools for improving compliance. 9/30:15-16
Top reasons for US hospitalizations. 10/30:13
Typhoid fever reported in the United States. 4/30:13
Update: Dietary therapy for coronary artery disease. 2/28:9-10
Updated CD-ROM resources. 5/30:10
Vision deficit may cause disorientation in Alzheimer's. 6/15:15
Which FPs are most likely to be sued? 6/15:18
White House focuses on America's mental health needs. 8/15:20

Metabolic disorders

The diagnostic challenge of porphyria. 1/15:57-75

Musculoskeletal disorders

How to choose between CT and MRI for musculoskeletal pain. 10/30:54-70
Identifying entrapment and compression neuropathies. 12/15:138-148
Paget's disease of bone: A new philosophy of treatment. 12/15:40-61
Recognizing the spondyloarthropathies. 4/15:183-194
Rheumatic disease: Which diagnostic tests are useful? 3/15:83-102
The latest approaches to rheumatoid arthritis treatment. 7/15:69-90
Using bone remodeling markers in osteoporosis treatment. 2/28:121-130
When to use the new rheumatologic drugs. 10/15:107-124

Neurologic disorders

A quick neurologic examination. 1/30:19-33
Advances in the treatment of multiple sclerosis. 6/15:88-106
Augmentation therapies for advanced Parkinson's disease. 1/30:108-121
CT versus MRI: Which is better for diagnosing stroke? 3/30:175-182
Current approaches to myasthenia gravis. 9/15:137-148
Keeping current on Alzheimer's disease. 6/15:127-146
New approaches, improved outcomes in stroke rehabilitation. 4/15:162-180
New treatments, new risk factors for acute ischemic stroke. 3/30:144-164
Optimal use of the new anticonvulsant drugs. 11/30:89-102
Primary prevention for ischemic stroke. 3/30:165-171

Office urgencies

Asthma: Acute and long-term concerns. 2/15:154-174
Coping with psychiatric emergencies in the office. 2/15:185-204
Essential first steps in cardiac emergencies. 2/15:30-55
Hypertensive crises: Treat the patient, not the BP. 2/15:129-150
Keeping dehydrated patients out of the hospital. 2/15:81-109
Outpatient options for deep vein thrombosis. 2/15:60-77
Rapid responses to skin and soft tissue infections. 2/15:114-127

Ophthalmology

Early clues to vision loss. 4/15:220-237

Patient Information

Acne: Six rules to live by. 6/15:278
Close control of your diabetes. 4/15:77
Decreasing your risk of heart disease. 10/15:61
Do you have an anxiety disorder? 8/15:96
Do you keep getting urinary tract infections? 6/15:73
Facts about allergic rhinitis. 1/15:145-146
Facts about asthma. 1/15:143-144
Facts about dehydration. 2/15:112
Facts about hyperthyroidism. 9/15:218
Facts about hypothyroidism. 9/15:217
Help for eczema. 5/15:96
How to handle low blood sugar. 4/30:41
How to live a long, healthy life. 11/15:193-197
How to lower your cholesterol. 7/15:145
If you have chest pain. 4/30:114
Know the facts about sexually transmitted diseases. 5/30:103
Mindfulness meditation. 7/15:129
Myths and facts about ulcers. 12/15:137
Passing a kidney stone. 9/30:44
Preventing asthma attacks: What you can do. 2/15:181
Preventing skin cancer. 5/15:63
Prevent sports-related injuries. 6/15:87
Questions and answers about the Lyme disease vaccine. 6/15:209
Stay away from poison ivy! 5/15:239-240
Taking your blood pressure at home. 1/30:83
Two ways to relax. 7/15:128
Using antibiotics wisely. 1/15:111
What is social phobia? 8/15:133
What you need to know about rape. 4/30:63
Why you need a Pap test. 7/15:67

Pediatrics

A less painful approach to neonatal circumcision. 3/15:189-196
Battling drug-resistant Streptococcus pneumoniae in children. 7/15:146-175
Common gynecologic findings in the prepubertal girl. 3/30:93-105
Coping with colic. 4/15:125-140
Gynecologic examination of the prepubertal girl. 3/30:71-92
How to avoid orthopedic pitfalls in children. 2/28:95-116
Strep throat: Considering the diagnostic options. 4/30:119-145

Practical Briefings

Advances in CHF treatment: From clinical trial to the community. 3/15:23-27
A more accurate way to diagnose appendicitis in children. 12/15:39
An alternative to the new diabetes diagnostic criteria? 7/15:31-34
Atrial fibrillation: Physicians sit on the fence. 1/30:12-15
Cognitive behavioral therapy for patients with noncardiac chest pain. 9/15:32-33
Comparing leukotriene inhibitors and corticosteroids in asthma. 6/15:34-37
Dermatologic diagnoses: A call for more training. 5/15:28-33
Effective treatment for winter depression. 1/15:19-24
Head and heart: The impact of mood disorders on cardiovascular disease. 8/15:36-48
Keeping older patients depression-free. 3/30:19-20
Lung cancer screening takes a leap forward. 10/15:34-36
More than skin deep: The changing face of dermatologic therapies. 9/30:17-18

stress. 10/15:171-186
BUSH TL: Breast cancer prevention: Are we making progress? 10/30:30-48

C
CAGNA R: Palpable lesions resistant to corticosteroids. 4/30:159-163 (C)
CALVERLEY DC: Platelet inhibitors: Old and new uses. 10/30:111-117

CAPLAN LR: Distinguishing vascular dementia from Alzheimer's disease. 10/30:71-89
CAPRIOLI J: Early clues to vision loss. 4/15:220-237
CARIGNAN C: What's new in female sterilization. 3/15:118-142
What's new in male sterilization. 3/15:143-158
CARR PL: Vaginitis: Solid diagnosis means effective treatment. 1/30:86-106
CARSON JL: Step-by-step identification of pulmonary embolism. 7/15:95-107
CARSON MP: Managing the pregnant patient with heart disease. 3/15:53-81
CATALONA WJ: Treating early prostate cancer: Difficult decisions abound. 10/15:82-105
CERDA J: Common Conditions. Part 3. Reflux, abdominal pain, diarrhea. 4/15:238-249
CHAPNICK EK: Rapid responses to skin and soft tissue infections. 2/15:114-127
CHATTERJEE K: A comprehensive look at cardiomyopathy. 6/15:210-235
CHRISTMAN JW: Current thinking on sepsis treatment. 9/30:7-92
CHRYSSOS AE: MIDCAB: The future of cardiac surgery? 2/28:74-94
COBIN RH: Common Conditions. Part 5. Hypothyroidism, hyperthyroidism, hyperparathyroidism. 9/15: 186-206
COHEN BJ: Making a difference in post-MI care. 12/15:63-95
COHEN JA: Early clues to vision loss. 4/15: 220-237
COLEMAN E: Patients with sexual dysfunction: Your guidance makes a difference. 4/15:99-123
CONNORS AF: Reconsidering the role of right heart catheterization. 3/15:212-220
COOLEY DA: When to use the new rheumatologic drugs. 10/15:107-124
COOPER KD: Psoriasis: New clues to causation, new ways to treat. 5/15:154-164
CORBETT JJ: A quick neurologic examination. 1/30:19-33
COSTANZO MR: A comprehensive look at cardiomyopathy. 6/15:210-235
COYLE PK: Advances in the treatment of multiple sclerosis. 6/15:88-106
CUMMINGS SR: Breast cancer prevention: Are we making progress? 10/30:30-48
CUNHA BA: Current thinking on sepsis treatment. 9/30:78-92

D
DALY DJ: A baby with blisters. 7/15:205-208 (C)
A recurrent rash with blisters in an obese woman. 7/15:245-246 (C)
A suspicious rash and extreme fatigue in a 62-year-old woman. 2/15:209-210 (C)
Pruritic rash on the left palm. 5/15:246-249 (C)
DAVIDSON JA: Problems in Diabetes. Part 3. Type 2 diabetes: Earlier detection, younger patients. 5/30:18-42
DAVIS AL: Identifying and treating atypical pneumonia. 9/15:175-184
DEMARCO PJ: A college student with flu-like symptoms. 10/30:118-120 (C)
DEMEYER WE: A quick neurologic examination. 1/30:19-33
DENNIS DT: Now you can prevent Lyme disease. 6/15:180-205
DEVONS CAJ: Hale, not frail: Successful aging. 11/15:162-191
DICKEY L: Providing more—and better—preventive care. 11/15:198-210
DILLMAN R: Using tumor markers in cancer screening and follow-up. 3/30:109-124
DORAISWAMY PM: Advising patients about St. John's wort and depression. 3/15:107-114
DRAELOS ZD: Saving face: A treatment update for acne. 6/15:257-277
DRESSNER I: Neck pain and arm weakness in an older woman. 9/15:219-220 (C)
DRETLER SP: Urolithiasis: New tools for diagnosis and treatment. 9/30:28-42
DRISCOLL CE: Patients with sexual dysfunction: Your guidance makes a difference. 4/15: 99-123
DROSSMAN DA: Common Conditions. Part 3. Reflux, abdominal pain, diarrhea. 4/15:238-249
DUCKWORTH WC: Problems in Diabetes. Part 1. Managing unstable disease. 4/15:54-76
DUPONT HL: Acute infectious diarrhea in adults. 9/30:58-77

E
EAGLE KA: How to assess cardiac risk before noncardiac surgery. 4/15:197-219
EDWARDS CL: Using mind-body therapies in primary care. 7/15:108-126
ELBEERY JR: MIDCAB: The future of cardiac surgery? 2/28:74-94
ELLIOTT WJ: New treatments, new risk factors for acute ischemic stroke. 3/30:144-164
Primary prevention for ischemic stroke. 3/30:165-171
EMMANS SJ: Common gynecologic findings in the prepubertal girl. 3/30:93-105
Gynecologic examination of the prepubertal girl. 3/30:71-92
ENDICOTT J: Understanding depression in women. 11/30:19-34
ENGLAND JD: Identifying entrapment and compression neuropathies. 12/15:138-148
EPSTEIN WL: Poison ivy update: 5/15:214-237
ESPINOZA LR: Recognizing the spondyloarthropathies. 4/15:183-194

F
FAIR WR: Cancer prevention: What really works. 11/15:65-94
FARMER KC: A careful approach to off-label use. 9/30:95-110
FAYE EE: Early clues to vision loss. 4/15:220-237
FIKRIG E: Now you can prevent Lyme disease. 6/15:180-205
FISH FS: Six dermatologic emergencies not to miss. 5/15:121-150
FISHER M: New treatments, new risk factors for acute ischemic stroke. 3/30:144-164
FLEISCHER AB Jr: Skin lesions that mimic child abuse. 5/15:169-192
FLEISHER DR: Coping with colic. 4/15:125-140
Primary prevention for ischemic stroke. 3/30: 165-171
FRAME P: Providing more—and better—preventive care. 11/15:198-210
FRANCO M: Fever, chills, and headache in a man from Nicaragua. 3/15:221-222 (C)
